Accra, Ghana

SUMMARY PROFILE

I'm passionate about building scalable and efficient solutions. I specialize in web and software development, creating intuitive and high-performing applications.

EDUCATIONAL QUALIFICATIONS

University Of Ghana

Bachelor's Degree in Computer Science

2019 – 2023

St. Thomas Aquinas Senior High

West African Senior School Certificate Examination.

2016 – 2019

TECHNICAL SKILLS AND ABILITIES

Programing

- Possess programming skills, utilizing various programming methodologies to write efficient solutions for given problems.
- Ability to design and implement code to develop robust algorithms and applications.
- Ensure that data-driven solutions are both scalable and reliable.
- Expertise in programming complements analytical skills.
- Enable tackling complex challenges and delivering innovative solutions.

Data Analytics

- Extensive experience using Python libraries such as Pandas, NumPy, and TensorFlow for comprehensive data analysis.
- Adeptly manage and manipulate large datasets with Pandas, performing complex data wrangling and transformation tasks.
- Efficiently handle numerical computations and array operations with NumPy, essential for data processing and analysis.
- Proficient in TensorFlow, allowing implementation and optimization of machine learning models, enhancing predictive analytics and data-driven decision-making.
- Experience with other packages, including:

- Scikit-learn for machine learning
- Matplotlib and Seaborn for data visualization
- SciPy for scientific computing
- Empowered by a robust combination of tools to extract valuable insights and drive actionable outcomes from diverse data sources.

Database Management

- Complement data analytics expertise with data management skills.
- Work with database management systems such as PostgreSQL and MySQL to efficiently store, retrieve, and manage data.
- Experience with these systems ensures the ability to handle large volumes of data.
- Maintain data integrity and support complex queries.
- Contribute to effective data-driven solutions and seamless database operations.

AWS Cloud Computing

- Configured a networking environment using Amazon VPC
- Deployed a Scalable Web App on AWS: Used EC2, S3, RDS, and Route 53 to host a dynamic web application. Implemented auto-scaling and load balancing for high availability.
- Deployed a web application using AWS Amplify

CAREER HISTORY AND EXPERIENCES

Teaching Assistant

University of Ghana - Computer Science Department

2023 – Present

- Tutoring and mentoring undergraduates to improve on academic excellence
- Assisting Lectures in research work.
- Coaching students in their final year project
- Tutoring python programming

Software Developer

Blue Tears - Intern

2022-2023 1y

- Exploring and integrating Payment APIs including MTN payment gateway, Hubtel, Pay Stack etc.

PROGRAMMING LANGUAGES AND OTHER TOOLS

Programming Languages:

- Python
- Java – Spring Boot
- JavaScript - React
- PHP – Laravel
- C#

Others:

- AWS
- Version control System – Git
- SQL
- HTML
- CSS
- APIs

- Photoshop

RESEARCH CONTRIBUTIONS

Enhancing Unsupervised Signature Verification through Advanced Feature Extraction Techniques - (Preprint)

April 2024

Michael Laryea Tetteh, Opoku Yaw Sarfo, Albert Ankomah Dodoo, Daniel Kwame Amissah, Michael Soli, Justice Kwame Appati.
